

## Parental Permission for the Trebuchet Project

It is ok with me for my son/daughter \_\_\_\_\_ to: *(choose one)*  
*name*

\_\_\_ work with \_\_\_\_\_ on the Physics Trebuchet Project.

\_\_\_ work by themselves on the Physics Trebuchet Project.

I am aware that they will be building a trebuchet that uses weights to launch a projectile, such as a baseball, about 30 meters (65 feet). The trebuchet will have moving parts and, if not built well or used correctly, could cause physical damage to people or property.

I am comfortable with my son/daughter doing this project and feel they can be trusted to keep themselves and others safe.
